Year 6 News

Our new-look newsletter with all the latest updates from school

6th March 2020

Learning this week

In Maths we have been continuing to work on our knowledge of measurements (length, capacity and weight) which has now started to include imperial measures and how they convert to metric.

For world book day this week we brought together all of the reading skills we have been extending and revising, so that the children could do their own creative quad write.

NEWS THIS WEEK

World Book Day

Reminders

The weather is still very wet and cold and is set to remain so. Please could you ensure that children have their coats with them so that they can access and enjoy the outside in their free time.
